The mitten that was not lost

Name: _____ Date: _____

Noor found one mitten in her bag. The other was lost! She looked under the chair. It was not there. Then she remembered changing bags. With Mum, she checked the old bag. The mitten was in a little pocket. It was not lost. She had forgotten its place.

Talk and draw

What helped Noor after she did not find the mitten under the chair? Draw two things you would check together before going out.

The mitten that was not lost

Name: _____ Date: _____

Noor was getting ready to visit Grandpa. She reached into her bag and found one mitten. The other one was lost, she said at once. Mum suggested remembering the last time she had used them. Noor remembered the seat near the door. They looked underneath it, but found nothing. Noor sat down and thought through yesterday's steps. She had taken off both mittens and then moved her books to a different bag. Perhaps one mitten had stayed behind. Mum brought the old bag. Noor opened its little pocket and found the mitten folded inside. Her first idea had not worked, but she did not need to keep searching the same place. She drew a pair of mittens on a small card and put it beside her bag as a reminder to check for both before leaving.
